

2025 Day Camps

Wilderness Experience is a Christian outdoor ministry based in and reaching out to Duluth, Minnesota and surrounding areas. Specializing in day camps and a growing variety of outdoor learning experiences for children and young adults, the mission of WE is *To Help our Community Pursue Jesus Christ by Experiencing His Creation.*

Each of our day camps has a specific theme and focuses on certain skills, yet some elements will be a part of every camper's time at Wilderness Experience: active time outdoors, Bible exploration, cultivating relationships with others, journaling and reflecting, interacting with animals, and growing in faith and care for God's creation.

SUMMER REGISTRATION OPENS February 28th!

- Ages are based on the grade your child will be **entering** in the fall.

- 3:00pm - 4:00pm: Flexible Departure

Friday:

- 2:30pm - 3:00pm: Camper & Family Marshmallow Roast and Check-out

K-1st Grade Summer Camps

K-1st Creativity in Creation June 16-20 \$250

We'll spend our time experiencing the beauty in nature that is a reflection of our creative God. We'll explore different areas of the farm and forest, and work with our hands to design projects and participate in activities that show how God cares about even the tiniest details around us.

K-1st Junior Explorers July 7-11 \$250

We'll learn what it takes to become a proficient outdoor explorer. Setting up shelters, cooking, map skills and more! We'll practice modes of travel, hiking in the woods, and canoeing on the pond. Soon you'll be guiding your family on their next outdoor adventure.

K-1st Pioneers July 28-August 1 \$250

We'll spend time living life on the farm and exploring the woods as the pioneers did! We'll bake bread in our wood-fired oven, as well as plant, cultivate, and harvest fruits and vegetables from the garden. We'll learn to shepherd our flock of sheep and care for the laying hens. We will do some crafts and activities that the early settlers would have done.

2-3rd Grade Summer Camps

2-3rd Northwoods Campcraft June 23-27 \$250

We'll create our own woodland "camp," building shelters, foraging, and exploring in the forest. We'll learn and practice skills such as firebuilding, camp cooking, and canoeing. We'll harvest materials from the forest for baskets, bow and arrows, plants for dyeing fabric, and much more!

2-3rd Nature Investigators July 14-18 \$250

We'll be taking our microscopes and magnifying glasses on many adventures around the farm as we explore pond life, observe birds in flight, study the texture of bark, and much more! We are excited to examine all of the reflections of our expressive God.

2-3rd Farmhands August 4-8 \$250

Dive deeper into life as a farmer! Kids will get the opportunity to plant seeds, harvest crops, help with farm chores, and get lots of hands-on time with the farm animals. Each day will be a new learning experience in keeping the farm running smoothly.

2-3rd Heroes in Action August 18-20 (3 Days) \$150

We'll learn what it means to be a hero and challenge ourselves through superhero training. We will also dive into some different hero stories of the Bible. We may even meet some real heroes of our own.

4-5th Grade Summer Camp

4-5th Wild Water June 30-July 3 (4 Days) \$200

Water week at camp! This week you will experience life on the pond through canoeing, fill up some water balloons, and play some water related activities.

4-5th Into the Wild July 21-25 \$250

We'll head into the woods to learn the skills you need to go camping on your own! We'll learn how to set up tents and tarps, camp cooking, knots, navigation and even make some of our very own gear for your next adventure!

4-5th Homesteaders August 11-15 \$250

We'll spend time living life on the farm and exploring the woods as the early homesteaders did! We'll bake bread in our wood-fired oven, as well as plant, cultivate, and harvest fruits and vegetables from the garden. We'll learn to shepherd our flock of sheep and care for the laying hens. We will do some crafts and activities that the early settlers would have done.
